Re: Thank you for supporting The American Victims of Terrorism Compensation Act

Dear Senators Blumenthal and Cornyn,

We are writing to express our sincere thanks for your tireless efforts and support on behalf of American victims of state-sponsored terrorism. We are especially grateful for your leadership in supporting victims of terrorism by introducing the American Victims of Terrorism Compensation Act this year. This Act means more to us than you may know. It is recognition of those lost and the suffering of those left behind to make sure we and they are never forgotten, and it is a life-line for thousands of victims across the broad coalition of Americans gravely impacted by state-sponsored terrorism who rely so heavily on the U.S. Victims of State Sponsored Terrorism Fund.

The American Victims of Terrorism Compensation Act will provide for meaningful compensation from the USVSST Fund on a consistent and predictable annual basis. When the Fund was created, the victims were so hopeful that help was on the way. Unfortunately, the Fund has not worked as Congress intended. Your actions in bringing this Act before Congress to “Fund the Fund” have renewed our hope that we will be able to count on distributions each year to help us through our struggles. We understand that full compensation will take time, but knowing that our government will support us each year, and eliminating the anxiety of non-payment, is vitally important to every one of us. We appreciate your thoughtfulness and creativity in developing a solution that continues to force bad actors who do business with State Sponsors of Terrorism to give up their ill-gotten gains to support victims, in a way that does not impair or impede other important government programs. Because of your efforts and caring, thousands of American victims with unpaid and uncollectable judgments against State Sponsors of Terrorism will receive justice. But your efforts also recognize the terrible truth that the victim community is growing as we speak, and make sure that all Americans know that if they are ever the unfortunate victims of state-sponsored terrorism, the U.S. Government will be there to pursue justice and support them.

During this holiday season, we have renewed hope because of you. Your commitment to make sure that victims of state-sponsored terrorism will receive the compensation to which they are entitled, and which they need, before the USVSST Fund expires in 2039, fills an urgent need

at a time of year when we often feel most vulnerable. We are especially warmed by your bipartisan leadership efforts. This is paramount in signaling to American victims on behalf of our entire Government that they have not been and will never be forgotten.

Respectfully,
